NEWS RELEASE

INEOS Styrolution: Breakthrough in chemical recycling of polystyrene

Share

04/09/19 Frankfurt, Germany

INEOS Styrolution, the global leader in styrenics, announces that it completed the first successful test runs producing virgin polystyrene from previously depolymerised material. These experiments can be seen as the practical proof of the recyclability of polystyrene.

NEWS RELEASE

INEOS Styrolution advances closer to offering recycled polystyrene at commercial scale

Share

10/16/19 Frankfurt, Germany

INEOS Styrolution produced its first small batches of chemically recycled polystyrene at its facility in Antwerp and provided sheets containing 50% of recycled GPPS to Unternehmensgruppe Theo Müller, a leader in dairy products. The Group has now produced yoghurt cups from this recycled material.
